

RoHS

Declaration of presence/absence of dangerous substances in materials and components.

Dear Sirs,

according to the European Directive 2011/65 EU, emendated 2015/863 UE e 2017/2102 UE, the use-restriction of some dangerous substances in the electric and electronic equipment, this is to declare you that the following dangerous substances are not present in the materials, pieces and components which we supply you.

Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Esevalent Chromium (Cr 6+)	Polybromided biphenyls (PBB)	Ethers of polybromided diphenyls (PBDE)
☑ NO	☑ NO	☑ NO	☑ NO	☑ NO	☑  NO

Note: Treatments of azure passivated zinc plating on our products are realized through a process of passivation, which uses only trivalent-Chromium; so the zinc-chromium plating is totally exempt from hexavalent-Chromium.
